

LLWGS 2010 MEMBERS-ONLY POND TOUR

TOUR STOP 3:

NO SPOT is too small for a water feature as seen in this quiet corner of a small condo patio at right. Above, members enjoy the rest of the garden.

TOUR STOP 4:

STOP FOUR was at the club's vice-president west side Springfield home where a swimming pool was converted into a pond. The fish population includes koi, goldfish, and a resident catfish. The deck extends over the water for a feeling of a dock. Above, a dragonfly feeds on a lotus seed pod. Members, at far right, enjoy refreshments and fellowship on the shaded patio.
