

LLWGS 2011 MEMBERS-ONLY POND TOUR

(stops 1 to 3)

STOP 1:

Members opened their Virden, IL pond and extensive gardens to club members for the first stop on the tour. Their home featured delightful pond adjacent to their patio with waterfall, lush plants and fish. Lush garden plantings filled their property with other water features here and there throughout the setting. A pondless water feature had water spilling from large vase and bubbling from large stone into rock basin.

STOP NO. 2:

Chatham, IL members opened their home to members for the second stop on the tour. Beautiful flowering beds lead the way to backyard where visitors enjoy their water garden, swimming pool and many interesting gardens features. Whiskey barrel is perfect setting for the mosaic plant, which doesn't like moving water or fish.

STOP NO. 3:

Small yard? No problem. This charming Jerome pond fills the spot off the owner's deck in the middle of the city. It is lush with a variety of thriving water plants and fish.
